

Listed below are the global cash/self-pay rates (included is facility fee, the surgeon's fee and the anesthesiologist's fee.) The duration of postoperative care is different for each surgical procedure. Your surgeon will inform you at the initial consultation the amount of postoperative care covered by the price. The \$200 initial consultation fee is applied to the total cost of the procedure should surgery be indicated. If surgery is not indicated the \$200 will be retained by us. A list of what is NOT included in the fee is as follows:

Any diagnostic studies necessary prior to the surgery such as lab, MRI, x-rays, physical therapy and rehabilitation.

Any hardware or implants necessary for the procedure (i.e. screws for orthopedics.) The price information will be provided prior to surgery. Our experienced surgical staff knows with almost certainty what will be needed to complete your surgery and the hardware or implants will be provided to you at invoice cost without markup.

Overnight stays do not occur at our facility.

Expenses or fees resulting from complications that might arise after completion of the surgery and discharge from the facility.

The following is a partial list of procedures available. If the procedure you need is not listed, feel free to call to inquire about availability and pricing. Prices are not negotiable. As a reminder, if surgery is scheduled at our facility and insurance is to be filed by us, these prices do not apply. Also, direct pay does not count toward a deductible.

Orthopaedic Procedures

	Cost
Shoulder Arthroscopy	\$5,720
with Rotator Cuff Repair -29827	\$8,500
with Biceps Tenodesis - 29828	\$8,000
with Debridement - 29822/29823	\$7,750
with Acromioplasty - 29826	\$7,720
Distal Clavicle Repair - 29824	\$7,720
Slap Repair - 29807	\$8,500
Labral Repair - 29806	\$8,500

Pain Procedures

Cervical Epidural - 62310	\$1,550
